

# RECALL NOTICE

Flexsteel Industries, Inc. announces a recall on certain reclining furniture styles equipped with a power button control with a dual USB port manufactured by a component supplier.

**Hazard:** During charging, mobile devices plugged into the dual-USB control can be permanently damaged. Flexsteel has received ten reports of smoke and two reports of damage to carpet or fabric, resulting from overheated cables. No injuries have been reported.

**Recalled Product:** Flexsteel's reclining furniture products only and only those pieces equipped with a power button control with a dual USB port as shown above. The affected products were delivered between January 1, 2015, and March 20, 2018. For a list of SKUs equipped with a dual-USB control, contact your retailer or Flexsteel customer service using the contact information provided below.

**Remedy:** Stop using the dual-USB control for charging mobile devices, and contact Flexsteel to arrange for a technician to replace with a single-USB control.

**For More Information:** (563) 556-7730 Monday through Friday between 8:00 a.m. and 4:00 p.m. (CDT) or [dualusbmotionswitch@flexsteel.com](mailto:dualusbmotionswitch@flexsteel.com)

Post until October 1, 2018
