

# Senior Living Collection

Our products are built on beliefs and values that evolved through over a century of manufacturing. Through the years, our commitment to craftsmanship, accountability, and leadership has helped us grow and thrive.

## A Trusted Partner

## Heart of Steel

You'll find our namesake Blue Steel Spring at the core of our upholstered seating. We believe so strongly in this support system, we guarantee its durability for a lifetime of use.

The design itself hasn't radically changed in over 75 years. Unlike eight-way hand-tied springs, it never needs retying or replacing to keep you from getting that sinking feeling in your seat.

We take our responsibility to produce furniture seriously. Our products are tested to contract standards using American National Standards Institute (ANSI) and Business and Institutional Furniture Manufacturers Association (BIFMA) x 5.1 guidelines. We test designs for function, safety, and durability to ensure the furniture you receive can withstand the rigors of a contract environment.

## Tried and Tested

## Environmental Commitment

Flexsteel meets and upholds the standards of the EFEC. We are proud to use recycled products and natural materials to promote waste management and reduce our carbon footprint—without sacrificing style.

# Designed for Seniors

Our goal is to build furniture that is not only safe, comfortable, and durable for the aging population, but also easy for family members and caregivers to use. Several of our products offer additional features that cater to senior-specific needs.

## SpringFlex Back

Cradles and supports while offering the option to rock in a back-and-forth motion.

## Senior Living Cleanout

A moisture-resistant seat deck with cleanout ensures that moisture does not reach the frame or internal parts of the product.

## FlexCare Removable Seat Deck

Exposed and internal parts are finished to resist moisture. Frames are reinforced for long-term durability and heavy usage. The powder-coated seat frame is covered with moisture-resistant fabric and can be easily removed for cleaning.

## Comfort & Function

We offer furniture carefully curated to serve the various needs of senior living communities, including:

**Common Areas**

---

**Resident Rooms**

---

**Dining & Activity Rooms**

---

**Administrative &  
Collaborative Spaces**
